PROFESSIONAL SUMMARY

Results-driven Software Developer with 3 years of experience architecting and delivering scalable, enterprise-grade web applications using React.js, Next.js, and TypeScript. Proven track record of shipping high-performance, customer-facing platforms for enterprise brands including EMAAR India and MaxLife Insurance, improving page performance by up to 40% and cutting redundant API calls by 30%. Skilled in component architecture, Redux/RTK state management, RESTful API integration, and responsive UI engineering, with hands-on experience extending into AI-driven automation using LangChain, LangGraph, and n8n. Recognized as **Employee of the Year 2024** for exceptional ownership, technical depth, and cross-functional delivery.

TECHNICAL SKILLS

Languages JavaScript (ES6+), TypeScript, HTML5, CSS3

Frameworks React.js, Next.js, Redux / RTK, React Query, Tailwind CSS, Ant Design, MUI, SSR / SSG

Backend Node.js, Express.js, SQL

AI & Automation LangChain, LangGraph, Claude Code, n8n (Workflow Automation)

Testing Jest, React Testing Library, Unit Testing

Build & Tools Webpack, Vite, Git / GitHub, npm / yarn, ESLint, Postman, GitHub Copilot

Cloud & DevOps AWS S3, Docker, CI/CD

Design & UX Figma, Responsive Web Design

Methodologies Agile / Scrum, SOLID Principles, JIRA

WORK EXPERIENCE

Software Developer | Technogetic Pvt. Ltd.

Nov 2023 – Present

Projects: EMAAR India Customer Portal, MaxLife Insurance Platform, GBP Automation & AI-Powered SEO Insights

- Architected a reusable React component library of 20+ components adopted across 5 enterprise applications, accelerating development velocity by 30%.
- Built and shipped dynamic dashboards and customer-facing portals for EMAAR India and MaxLife Insurance using Redux and React Query, serving 10,000+ end users in production.

EMAAR India — Customer Web Portal *React, TypeScript, React Query, Node.js, AWS, MUI*

- Engineered a multi-step DigiLocker/Aadhaar identity verification workflow integrated with RESTful APIs, reliably processing 500+ verifications monthly, and secured credentials via AWS Secrets Manager.
- Improved page load time by 40% through React.lazy code splitting, SWR caching, and skeleton loaders, achieving 90+ Lighthouse performance scores.
- Optimized API performance with React Query caching, reducing redundant network requests by 30% and improving perceived load times.
- Redesigned the NOC (No Objection Certificate) journey, improving completion rates by 25% through UX redesign and streamlined form validation.

MaxLife Insurance Platform *React, Redux, Strapi CMS, Tailwind CSS, Responsive Design*

- Developed policyholder dashboards with Redux-based state management, handling complex data flows across 12+ policy types and 4 user roles.
- Integrated Strapi CMS for dynamic, content-driven page rendering, enabling the marketing team to independently update 50+ pages without developer intervention.
- Established a reusable component architecture of 15+ shared components, improving UI consistency and reducing new feature development time by 20%.

GBP Automation & AI-Powered SEO Insights *n8n, LangChain, LangGraph, AI Workflows*

- Built an automated Google Business Profile (GBP) scoring system for logged-in business accounts using n8n workflow automation.
- Developed automated website-improvement recommendations driven by profile parameters such as reviews, photos, and profile completion.
- Implemented AI-powered SEO content suggestions with targeted keyword recommendations to improve website visibility and organic growth.

★ Employee of the Year — 2024

Frontend Developer Intern | Innow8 Apps Apr 2023 – Oct 2023

Project: TaxZap — Progressive Web App

- Built 15+ responsive, mobile-first UI components and integrated 3 third-party APIs (payment, analytics, notifications), collaborating with 2 backend engineers to ensure seamless data flow.
- Boosted user engagement by 15% through Lottie animations, real-time form validation, and an accessible Ant Design UI.

CERTIFICATIONS

- LangChain — Certification (2026)
- LangGraph — Certification (2026)

EDUCATION

M.Tech — UIET, Panjab University	2018 – 2021
B.Tech — Jaypee University of Information Technology (JUIT), Solan	2014 – 2018
Class XII — DAV Centenary Public School (CBSE)	2014
Class X — Mount Carmel Sen. Sec. School, Una (ICSE)	2012
